XL8300

# XL8300

## RETRANSFER PRINTER

Matica's new XL8300 is an innovative retransfer printer that specializes in printing exceptionally high quality oversized cards for the event management industry and is capable of printing up to 128 cards per hour. The XL8300 offers contactless encoding as an option and like the rest of the XID Series 8 family it retains high quality print production.

The event management and conferencing market is a growth sector that includes conventions, trade shows and sports events such as the Olympics, motorsports, golf, football, tennis and all other competitions. Similarly, corporate environments may need wide format cards where access control requires immediate personal identification. At sites of specialized security the XL8300 has the option to encode contactless cards for electronic access control. Further, the XL8300 can print text, logo and images in UV ink and prints efficiently on a range of card materials including PVC, ABS and PET so its flexibility surpasses the market's alternative solutions.

Producing non-standard, wide format cards that reflect the calibre of events and conference organizers' own branding is a challenge in today's market, and it is critical that companies can feel confident that visitor and guest cards show them in a good light. The XL8300 achieves that, in part because its retransfer technology is superior.

Its compact design makes it practical. Given the limited competition in this particular market, the XL8300 is a unique solution from which to issue extra large, color badges on-site. It is based on Matica's most popular desktop printers: the XID8300.

As one of the newest members of Matica's XID 8 series, the XL8300 benefits from proven and well-known transfer technology, and also offers the largest printable area on the market.

### TECHNICAL SPECIFICATIONS

#### Print Method

Dye-sublimation retransfer (YMCK) / Thermal transfer (Monochrome "K")

#### Print Mode

Single side retransfer printing on oversized cards

#### Print Resolution

300 dpi

#### Print Speed

- Monochrome: up to 128 cards per hour
- Color: up to 85 cards per hour

#### Card Types

PVC, ABS, PET

#### Card Thickness

0.25 - 1.02 mm (hopper adjustment required)

#### Input Hopper Capacity

100 cards (0.76 mm)

#### Output Hopper Capacity

100 cards (0.76 mm)

#### Interface

USB 2.0 and Ethernet

#### Operating System Support

Windows 7, 8, 10 (32 & 64bits)

#### Power Supply

100/120 V and 220/240 V, 50/60 Hz FCC, CE, UL, GOST-R, and CCC approved

#### Operating Environment

15°C to 30°C, 35% to 70% noncondensing humidity

#### Printer Dimensions

549 x 322 x 411 mm (WxDxH) (Incl. oversized card feeder and hopper)

#### Weight

15,6 kg (excluding optional built-in items)

#### Warranty

Printer: 36 months

Printhead: Lifetime warranty using EDIsecure® materials (other conditions apply)
