

Pronto[™]

Simply the best value card printer.

MAGiCARD[™]
by  BRADY

Pronto™

A compact, versatile desktop ID card printer for lower volume issuance – ideal for membership clubs and small businesses. Incredibly easy to use with drop-in dye film and hand-fed card loading.

Secure - Exclusive to all Magicard printers, HoloKote is a patented technology that can print a secure watermark on every card. The Pronto is supplied with four predefined watermarks that can be easily selected from the printer driver. For added security, use in conjunction with HoloPatch cards which have a highly reflective gold 'super diffuser' seal.

Compact and portable - Lightweight but robust, the Pronto's small footprint makes it ideal for a reception desk or an office environment. Its portability and versatility comes with no compromise in print performance, making it ideal for remote ID card issuance at events or in the field.

Easy to use - Power it up, install its easy to use driver, drop the dye film in and you are ready to go. Combine it with TrustID and you have an instant solution that could have you printing identity cards in minutes.

Warranty

In order to benefit from the warranty offered, the product must have been purchased from a Magicard "Certified Distributor" or "Certified Reseller" and the end user has registered their printer serial number via reg.magicard.com at time of purchase.

If the printer proves defective during the warranty period and before returning the product, make your claim to a Magicard partner in the country of original purchase, listed at magicard.com/partners. Magicard and its partners are not bound to repair, replace or make reimbursement for the Product if the Customer does not return the Product under the terms and procedures set forth herein.

Security built in

HoloKote - The Pronto comes with 4 standard HoloKote designs, Magiscard's patented HoloKote security watermark which can be printed across the card surface. When used with HoloPatch cards, one area of the HoloKote watermark can be highlighted as a high visibility security seal.

HoloPatch - Unique to Magiscard, HoloPatch cards have a highly reflective gold 'super diffuser' seal. When the HoloKote watermark is printed on to the seal, the watermark becomes clearly visible under all lighting conditions. HoloKote with HoloPatch has a similar appearance to hologram seals. It provides a security mark which is visible from a distance, allowing a security guard or colleague to easily verify badge authenticity.
